

Angel Saikia

Data Scientist & Analyst

Portfolio: data-science.angelsaikia.com

Professional Summary

Data Scientist & Analyst passionate about transforming data into actionable insights. Specialized in machine learning, statistical analysis, and data visualization to drive data-informed decision making.

Professional Experience

Data Science Intern

DivSriVin Technologies

January 17, 2025 - February 28, 2025

Customer Churn Prediction Project

A machine learning project focused on predicting customer churn using activity data.

- Comprehensive data analysis and preprocessing
- Automated churn prediction based on user activity
- Multiple ML models (KNN, SVM, Logistic Regression)
- High accuracy (99.99%) in customer classification
- Robust data preprocessing pipeline

Technical Skills

Data Analysis

- Python & Pandas
- Statistical Analysis
- Data Preprocessing

Machine Learning

- scikit-learn
- KNN & SVM
- Logistic Regression

Visualization

- Data Visualization
- Model Evaluation
- Performance Metrics

Tools & Technologies

- Jupyter Notebook
- Git & Version Control
- joblib

Professional Certifications

Foundation Level - Data Science and Programming

Indian Institute of Technology, Madras (2024)

What is Data Science?
